

# FOUR SQUARE

## Instructions

*This is a great way to Push Play if you've got a bunch of mates around!*

### **HERE'S WHAT YOU WILL NEED:**

A bouncy ball

Four mates or more

Chalk

A big piece of concrete

### **HOW TO PLAY:**

1. You all have a square that has a ranking. The best square is number one, it's called "King or Queen" the second-highest ranked square is square two and so on.
2. To start the "King or Queen" stands outside their square, bounces the ball into their square then hits the ball into someone else's. Then they hit the ball into another square. You keep going till someone gets out.
3. You're out when:
  - the ball bounces twice before you hit it
  - your shot goes out of bounds
  - you get hit by the ball on the full
  - you hit the ball on the full
4. If the ball bounces on the line – it's a REPLAY
5. Once you're 'Out', you move back to the fourth square and everyone else moves up.
